

2024 EEA Heat Pump Energy Efficiency Products Program

Empire Electric Association, Inc. & Tri-State Generation and Transmission Association, Inc.

Complete your application at eea.coop/energy-efficiency-products-program or call EEA Energy Management Advisor at (970) 564-4450 for additional information. ***Credit must be requested within 90 days of installation.***

Electric Heat Pump – Air Source

* EEA's Rules and Regulations require you to advise EEA when making any material changes or increases in your connected load. Call EEA Energy Management Advisor at (970) 564-4450 to schedule an assessment before you purchase your new equipment. Rebates may be denied if you refuse to install required service upgrades.

**** Please Note****- All air source heat pump incentives are based on the total "size" of the heat pump system's **outdoor** unit or (in some cases) units, specifically the **outdoor** unit coil capacity in tons. One ton is defined as 12,000 BTUs for this purpose.

Ductless Air-Source Heat Pump

Base Tier-EnergyStar version 6.1 minimum standard-7.8 HSPF2

- \$250/ton, up to 5 tons
- \$125/ton for additional capacity over 5 tons
- Rebate cannot exceed 50% of equipment cost

Cold-Climate Tier-EnergyStar version 6.1 cold climate-8.5 HSPF2, 70% capacity and COP of 1.75 at 5 degrees Fahrenheit

- \$500/ton, up to 5 tons
- \$250/ton for additional capacity over 5 tons
- Rebate cannot exceed 50% of equipment cost

Ducted Air-Source Heat Pump

Base Tier-EnergyStar version 6.1 minimum standard-7.8 HSPF2

- \$250/ton, up to 5 tons
- \$125/ton for additional capacity over 5 tons
- Rebate cannot exceed 50% of equipment cost
- \$500 Bonus for dual-fuel with propane

Cold-Climate Tier-EnergyStar version 6.1 cold climate-8.1 HSPF2, 70% capacity and COP of 1.75 at 5 degrees Fahrenheit

- \$500/ton, up to 5 tons
- \$250/ton for additional capacity over 5 tons
- Rebate cannot exceed 50% of equipment cost
- \$500 Bonus for dual-fuel with propane

Air to Water Heat Pumps

- \$500/ton, up to 5 tons
- \$250/ton for additional capacity over 5 tons
- Rebate cannot exceed 50% of equipment cost.

Ground Source Heat Pump

- \$1000 per ton for new systems
- \$500 per ton for replacement systems
- \$200 per unit for ground source heat pump powered hot water (a.k.a desuperheater)
- Rebate cannot exceed 50% of equipment cost.
