

2025 EEA Heat Pump Energy Efficiency Products Program

Empire Electric Association, Inc. & Tri-State Generation and Transmission Association, Inc.

Complete your application at eea.coop/energy-efficiency-products-program or call EEA Energy Management Advisor at (970) 564-4450 for additional information.

Credit must be requested within 90 days of installation.

Electric Heat Pump – Air Source

* EEA's Rules and Regulations require you to advise EEA when making any material changes or increases in your connected load. Call EEA Energy Management Advisor at (970) 564-4450 to schedule an assessment before you purchase your new equipment.

**** Please Note**** - ** - Each outdoor unit is considered one system. Two outdoor units are considered two systems and so on. One ton is defined as 12,000 BTUs per hour.

Ductless Air-Source Heat Pump

Energy Star version 6.1 minimum standard-7.8 HSPF2

- \$500 per system equal to or less than 1.5 tons (18,000 BTUs per hour)
- \$1500 per system greater than 1.5 tons (18,000 BTUs per hour)
- Rebate cannot exceed 50% of equipment cost

Ducted Air-Source Heat Pump

Energy Star version 6.1 minimum standard-7.8 HSPF2

- \$500 per system equal to or less than 1.5 tons (18,000 BTUs per hour)
- \$1500 per system greater than 1.5 tons (18,000 BTUs per hour)
- Rebate cannot exceed 50% of equipment cost.
- \$500 Bonus for dual-fuel with propane back-up heat (propane heating system must be able to cover a minimum of 50% of home or building space [SF] down to 17 degrees F [outdoor temp.]])

Air to Water Heat Pumps

- \$500/ton
- Rebate cannot exceed 50% of equipment cost.

Ground Source Heat Pump

- \$1000 per ton for new systems
- \$500 per ton for replacement systems
- \$200 per unit for ground source heat pump powered hot water (a.k.a desuperheater)
- Rebate cannot exceed 50% of equipment cost.
