

Empire Electric Association, Inc.

May 2026 Vegetation Management Work Areas

EEA has contracted with Arbol to trim vegetation that has grown close to our overhead electric lines. Arbol begins work on Monday May 4, 2026. The crew will be working along Highway 145 north of Dolores, along Road 38 and Road R on the West Fork of the Dolores River, south of Dolores east of Highway 145, and north of Mancos. Please watch for the crews and slow down when you see them as they work to keep your power safe and reliable. If you have questions, please call EEA at (970) 565-4444 or email contactus@eea.coop.
